

What our iKanEat Families Say...

"Our life really revolved around feeding her prior to the tube feed wean and now really we're able to just live."

"Prior to the wean mealtime was honestly, dreaded, now mealtime is something that we enjoy, it's fun."

"The end goal for the team on the study is not to have your kid struggle just because they are off tube feeds, the goal is to have your kid be successful and continue to grow and thrive with an end benefit of them being off their tube feeds."

Mother of 1.5 year old

"Freedom, that is the word that hits me the most"

"This season of life will end, and they will be able to eat and grow and thrive. It's hard, we see you, and we know. It's a difficult road but its not forever. I wish I had known that."

Parents of a 2 year old

"Trust the team through the process. If they see too much weight loss, they will intervene. They will not let your kiddo get to a point that is unsafe."

"It was really amazing going on our vacation this year and not having to pump him on the beach!"

Mother of an 8 year old
